

## Description

The SK humidifier is equipped with an optional UV light sterilizer. The UV sterilizer eliminates bacteria before entering the humidifier, which ensures that the humidifier delivers clean, humid air.

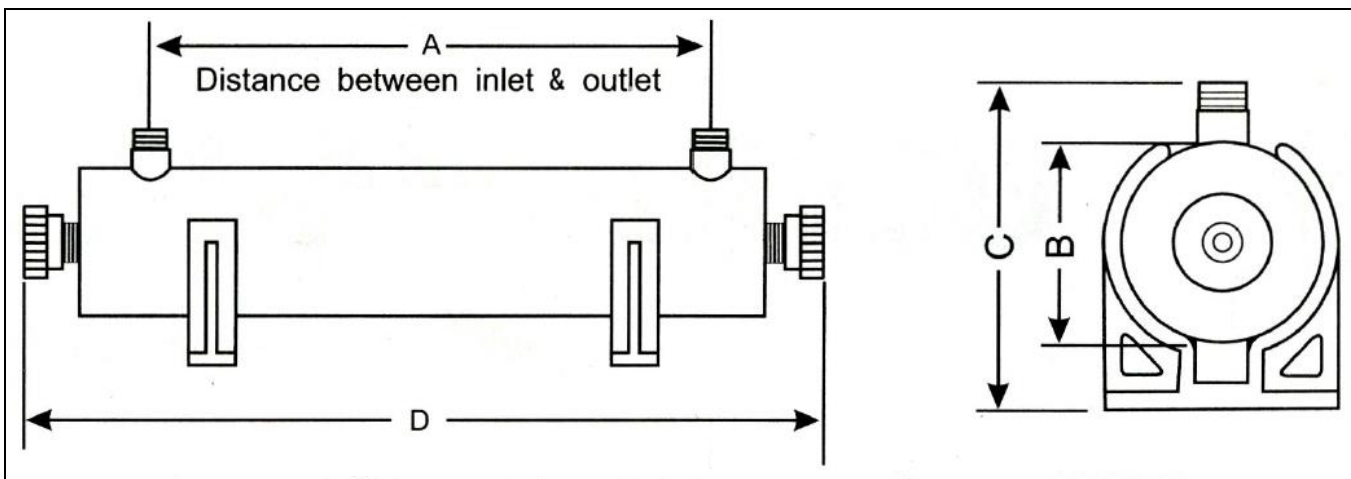

UV Light

## UV Light

### Technical Specification

Specification	UV Light
Suggested flow rate	5.5 GPM [1247 l/h]
Maximum flow rate	6 GPM [1361 l/h]
Voltage	100/240V [50/60Hz]
Current	0.4 A
Power	21 W
Operating pressure	10 PSI [69 kPa] to 100 PSI [689 kPa]
Ambient temperature	32°F [2°C] to 122°F [40°C]
Chamber material	304 Stainless Steel

### Dimensions

Dimensions (in) [mm]				Inlet and Outlet Diameter
A	B	C	D	
17.3 [440]	3 [63.5]	4.3 [110]	21.7 [550]	½" [15mm] NPT
